The Board met with Don Rhodes and NYS DEC regarding the Notice of Violation on the Upper Dam. Mr. Rhodes explained in detail the Notice of Violation and their response to it. Based on their findings, Mr. Rhodes said they feel a B classification for the dam would be more fitting than the C classification it currently has. There was further discussion about the possibility of having the dam classification changed from a Class C dam to a Class B dam. Mr. Dominitz asked what the vision is for the bridge. Mr. Raymond explained that the County currently has no immediate plans to restore or remove the bridge. He further noted that they have found no structural deficiencies with the bridge; the only issue is with the fascia. Mr. Raymond said the County will remove the damaged fascia pieces. There was further discussion as to what things need to be looked at concerning the bridge and the dam. The representatives from NYS DEC explained the reasoning behind the different dam classifications and further explained what information they will need to look at in order for them to consider changing the classification.

Adjourn... There being no further business to attend to the meeting was adjourned at 10:10AM by MOTION of Messrs. Hill and Simpson, all in favor.

Respectfully Submitted:

Town Clerk
